

CTEIG Questions and Answers

Q) Can the grant pay for engineer's drawings required by DSA, i.e. Greenhouses, pole barns, auto body paint booth etc.?

A) No

Q) Can the grant pay for Mileage reimbursement for Community Classroom observations?

A) Yes

Q) Industry specific downloadable software i.e. Mitchel on Demand, Solidworks etc.

A) Yes

Q) Can CTEIG dollars be spent on getting students their industry certifications, even if the teachers in their program do not hold CTE credentials?

A) CTEIG monies can be used for student certifications for pathways that are taught by CTE credentialed teachers.

Q) Can the grant pay clerical staff time to develop industry and labor connections for community classroom and worked-based learning activities?

A) Yes

Q) Can a director with a CTE credential that oversees all the CTE classes, use CTEIG funds even if the classroom CTE teachers are Community College Staff that teach dual enrollment classes on the high school campus during the school day to high school students?

A) In this situation, students are dual enrolled in the course, so yes, this would be acceptable.

Q) If a CTE teacher is integrating their class with an academic class can the academic teacher utilize CTEIG funds?

A) No, unless there are joint projects between both classes.

Note: In a collaboration project between a CTE course and science course for example, yes, there could be some expenditures that could be utilized by both classes.

This would be on a case-by-case basis and please check with your CDE consultant.

Q) Can a single subject credential holder in visual and performing arts that teaches Photography or Multimedia utilize CTEIG funds

A) No

Q) Can CTEIG funds be utilized for professional development for CTE teachers that are integrating lesson plans and units with academic teachers?

A) Yes. Check with your CDE consultant if you have any questions.
